

Nov, 26th 2004

The 100th tutorial (yes: one hundred) was put online.

The collecting of those took pretty exactly 6 month. Now its time for other users around the world to send me some new tutorials :) Please, if you find a tutorial, howto or interesting tip, send the URL to howtos (at) linuxhowtos org. If you have written your own tutorial please send it to the email address above. The visit counter keeps ticking faster and faster every day. Keep on and spread word about this site. A few more features will be added here soon. Make sure to return here in a few days to check them out.
